WORKERS TO FIGHT R. R. WAGE CUTS

Employes In East Expected To Refer Whole Question to U. S. Board

ERIE CUTS FORCE

Four Prominent Railway Executives Called Before Federal Body—Opposing Chiefs Confer.

New York, March 15.—The wage reductions proposed for unskilled labor by the various railroads in the East probably will be rejected by the workers, a canvass of officials of the interested union organizations indicated here last night.

The first official announcement of the refusal of the reductions is expected today, when representatives of the workers will meet in conference with officials of the New York Central and reply to that road's proposal to cut wages from 17 1-2 to 21 per cent.

While no official statements were made by union leaders, it was learned that the various organizations have been holding conferences here during the last few days, and all have virtually agreed to decline the wage cuts and let the whole matter go to the Railroad Labor Board at Chicago. The workers take the position that the figures and data submitted by the railroads do not show sufficient cause for the reductions and cannot be substantiated in a hearing.

That the railroad workers had agreed on a policy to fight the reduction was indicated by their move in advancing one week the date for the second conference with the New York Central officials. This conference was originally set for March 22.

"We are about prepared to give our reply," said Anthony Stair, spokesman for the United Brotherhood of Maintenance of Ways Employes and Railroad Shop Laborers. "We have given the matter careful consideration and officially will notify the railroad officials at the conferences called between now and March 22."

The latest reductions proposal by the railroads was made yesterday by the Central Railroad of New Jersey, which would cut wages of all unskilled labor from 10 to 17 cents per hour, effective April 1. Union representatives will make their final reply to this proposal on March 24.

The Erie Railroad ordered the laying off of 20 per cent. of all its working force with exception of train and engine crews, as a means of balancing the payrolls to offset the higher wages restored to unskilled labor last week. An intention to cut its wages on April 10 to the figure prevailing before the United States Railroad Labor Board awarded an increase last July was announced by officials of same company. This will mean a reduction of 20 per cent for all employes except train and engine crews.

Wage reductions ranging from 15 to 23 per cent for marine workers employed by the railroads in New York harbor, it was also learned, have been agreed upon by the official General Managers' Association, an organization of general managers of all railroads with terminals at this port. The proposal will be submitted immediately to the workers by the various railroads.

The reduction the marine workers will be asked to accept would wipe out the increases granted by the War Labor Board to the employes, effective May 1 last, after a series of strikes. Approximately 6,000 workers are affected.

Chicago, March 15.—Four prominent railway executives are expected to take the stand before the United States Railroad Labor Board next Friday in answer to a summons issued by the board yesterday. T. Dewitt Cuyler, chairman of the Association of Railway Executives, and his assistant, Robert S. Binkerd, will be called Friday morning. W. W. Atterbury, vice president of the Pennsylvania, and Carl R. Gray, president of the Union Pacific, will take the stand later, Friday or Saturday.

Decision to request the appearance of the executives was made by the board yesterday after Frank P. Walsh, attorney for the labor unions in the rules hearing now before the board, had refused to proceed with the case until the railway men had been called. These four with 13 others are expected by the unions to furnish testimony in cross examination that will materially strengthen their case, according to union representatives.

Philadelphia, March 15.—A conference between heads of four big railroad brotherhoods and members of the executive committee of the Association of Railway Executives was held here yesterday in the office of Thomas Dewitt Cuyler, chairman of the Association. At its conclusion it was announced progress had been made "in the discussion of matters of common interest."

Five Years Here

Members of Congregation of First Baptist Church Honor Dr. and Mrs. E. B. Jackson

In honor of the fifth anniversary of the pastorate of the Rev. Dr. E. B. Jackson, pastor of the First Baptist Church, Rev. Dr. and Mrs. Jackson last night were tendered a surprise party by the members of the congregation of that church at the church parsonage, 126 North Columbus street. The anniversary of his five years as pastor will be celebrated next Sunday morning.

Members comprising the party assembled at the church and marched in a body to the parsonage, bringing with them a variety of good things for the larder.

A large pound cake, appropriately and artistically marked, was presented in a brief speech by one of the company.

Handsome flowers were presented to Mrs. Jackson and many expressions of love and appreciation for both pastor and wife, were made. Altogether it was a happy occasion for pastor and people.

The work of the church is in a most flourishing condition, and the necessity for a larger church to accomodate the increasing membership is becoming more and more evident.

Washington Degree Team to Confer Work Tomorrow—Plan Church Services April 24

Central Lodge No. 1, of Washington, Odd Fellows, will confer the second degree of the order on a class of candidates for Sarepta Lodge tomorrow night. An invitation is extended all Odd Felows in the city to attend.

At the last meeting of Sarepta Lodge the anniversary committee reported that the members of Potomac and Sarepta Lodges would meet in the hall of Potomac Lodge April 24 at 7:15 o'clock and march in a body to the Second Presbyterian Church and hear a sermon by Rev. Dr. John Lee Allison, grand warden of the grand lodge. His topic will be the 102nd anniversary of the order.

C. A. Enoch, of Lynchburg, and Rev. J. L. McKenney, of West Virginia, requested the lodge to elect to membership the seventy-two members of Arlington Lodge No 183, and invited L. E. Butts, district deputy grand master to institute and install the officers on the following Thursday night, the work to be conferred by the degree staff of Potomac Lodge.

Warren S. Stone, head of the Brotherhood of Locomotive Engineers, indicated before the conference that the Pennsylvania's proposed wage reduction was not to be discussed, but matters of national importance were to be considered. As to the possibility of a strike of railroad workers, Mr. Stone declared he did not know what might grow out of the present situation.

Pennsylvania Railroad officials refused to discuss the conference, but admitted the stage was probably being set for concerted action by the railroads and their employes to bring the wage question to a final showdown before the United States Railway Labor Board as soon as possible.

BIG SLUMP SEEN IN TAX PAYMENTS

Treasury Officials Discouraged By Shrinkage Shown by Returns

$1,500,000,000 DROP

Individual and Corporate Incomes are Heavily Reduced—Majority of Returns Are In

Washington, March 15.—Income and corporation tax returns, thus far received by the Bureau of Internal Revenue and as so far analyzed, indicate that the income of the Government for the current year will be enormously reduced.

Although Treasury officials, from their own knowledge of business conditions during the greater part of the year 1920, were led to expect some pronounced reduction in Federal receipts, they were not prepared for the contraction which is shown in the figures now in hand.

In official quarters today it was stated that the returns from internal taxation this year, based, of course, upon last year's business, will fall at least $1,500,000,000 below the returns of 1920, as based upon the business done in 1919.

Some discouraged officials would not be surprised if the reduction is even greater than $1,500,000,000. Should the last-minute returns, to be filed not later than tomorrow, make no better showing than those filed early enough for the Treasury people to go over them, it is insisted that the shortage in revenue may run well beyond the present estimate.

It is shown by the returns which the officials have had the opportunity to examine that profits not only have shrunk in virtually all lines of business, but that in some lines no profits at all have been reported and, therefore, no taxes can be collected.

Also it is indicated that dividends which were running high in 1919 were passed in hundreds of cases in 1920. In most all other cases dividends have been reduced, although in a few established businesses the old rate was maintained through the past year even where it was necessary to cut down surplus accounts.

Individual incomes taken by and large are much smaller than in 1919, it is indicated by the returns. This is due in part to the fact that corporate earnings have been cut down, which, in turn, has reacted upon dividends, some of which have been withheld entirely and others reduced.

Wage earners also are reporting smaller incomes for 1920 than for the preceding year. Although the Government income from wages has not been proportionately large, it will fall off to such an extent this year, it is estimated now, as to make a considerable hole in the Treasury figures.

Salaried men, for the most part, have been affected less during the past year by business depression than any other single class, but it is indicated that the Government will get much less money from that source than in 1920.

Treasury officials are candidly alarmed over the revenue prospect for the current year. They make no secret of that fact in their private conversations. If the total Government incomes is cut down by $1,500,000,000 or even by $1,000,000, it will be with great difficulty that they will find the money with which to meet the Government's expenses.

Until July 1 the Federal outlays are fixed on the basis of appropriations made nearly a year ago. After July 1 the outlays will be based upon appropriation bills passed by the last Congress and the bills which will have to be passed during the coming extra session. The appropriations for the coming years are not materially less than those for the year which will end July 1.

Although appropriations are made for fiscal years, taxes are levied for calendar years. The money which the Government will receive from taxation during the calendar year 1921 is money which was made by the taxpayers in the year 1920.

Under existing law the taxpayer may pay his 1920 taxes in four quarterly installments, the first installment to be due by April 1. His tax return, on the other hand, must be in the hands of revenue collectors by March 15.

Most of the 1920 returns are in possession of the Government. The greater part of them still are on file with the local internal revenue collectors, but reports based upon those so far filed have been received in sufficient number by the Treasury Department to indicate that the Federal income will be cut from 30 to 40 per cent. this year.

Even though Congress finds new sources of taxation and enacts a new taxation law within the next few months, the revenue which would be provided for would not be collected until the latter part of this year. The Treasury must have a reasonable time in which to put into effect any new revenue act.

It is calculated by Treasury experts that tax returns under the new enactment will not be made until some time in 1922, no matter how soon Congress may find it possible to deal with the question.

TO-DAY'S THOUGHT. Striving to be man, the worm mounts through all the spires of form. Emerson.

The World Changing Heart.

The verse from Emerson in To day's Thought is the profound utterance of a seer. It is the whole Darwinian theory of the Origin of Species and the Descent of Man. This is the province of the true poet, to orb the celestial universe of thought in a dew drop of verse. Every poet is a philosopher. It is only the metaphysician who requires volumes of prose. Hamlet, you will remember, exclaims that he could be bounded in a nut shell, and yet count himself king of infinite space! So in the nutshell of verse quoted today, Emerson has given us an infinite thought.

We have yet to discover the poetic genius of the 20th century. Perhaps he is even now writing in some obscure garret. But we feel that when at last his sun bursts through the clouds of obscurity, he will be singing of the change of the world's heart. We caught a glimpse of the world's heart during the closing days of the world war. Woodrow Wilson was one of the few who felt the mighty pulsing, and its vibrations so exalted his own vision that for a few brief months the nations, beholding his transfigured image, hailed him as the One Man who could lead them to the Promised Land of brotherly love and perpetual peace.

But a man cannot look upon the face of a god with impunity. The divine glory is too great. So Wilson, shattered by the vision, uttered the message he heard, and thereafter fell silent. But the parting of the clouds showed the ineffable glory of the future. The world had seen the celestial splendor, however, and experienced a change of heart.

Man, through the ages till now, has been more allied to his animal ancestry than to his seraphic kindred. He has followed the law of the jungle with wars and rumors of wars and cruelty and greed and seflishness. The worm has had to mount through all the spires of form.

It is a strange thought, but it may be that all our laws of business and society and government—in fact all our ideas of human relationship may be undergoing a change. Take business, for instance, where the supreme object has been the making of money, the sole end and aim of all its endeavor. Suppose that in the future we would come to believe that, really, the objects to be attained was merely that all manufactured things might be distributed to the greatest number at cost. That manufactures were simply created to minister to man's physical wants. This would be one change of the world's heart, at any rate.

Did you ever stop to think that all human inventions, from the age of stone to the age of radium, were simply to save time to Man? You cannot think of one, whether in war or peace, that has not had this as its object. But why save time to humanity? Why should this apparently be the sole object of the inventor's brain, consciously or unconsciously?

The only answer is: that Man may have more leisure for his spiritual development The fewer hours he works to supply his animal being—the more hours he has for culture of his ethical being.

The thought is curious, and perhaps worthy of some attention. If right, then the world is already experiencing the change of heart that will affect the whole earthly destiny of mankind. If wrong—but we cannot admit that! The idea is in entire harmony with the divine truths revealed to humanity—and must be right!

Washington's Near Zone.

The Washington Herald, in this morning's issue has an editorial captioned as is this. The Gazette is, indeed, happy that in this naughty world there are two minds with such singleness of thought as is evidenced by the editorial columns of the two papers The Herald emphasizes the availability of Alexandria as a great manufacturing centre. It refers to rails and water meeting here as a common point. To our depth of water, sufficient for ocean going steamers. And to the immense advantages of Alexandria's suburban soil for truck gardening, with the national capital as a market. The Gazette has harped on this theme, and hammered on this anvil, assiduously for the past two or three months. It proposes to keep it up in the future until the whole world takes notice. Alexandria, with her numerous natural advantages, cannot have too much publicity.

A Minister Richmond Loved

Ripe in years and blessed with the love of a people to whom his life had been a benediction, Rev. John Calvin Stewart, pastor-emeritus of Grace Covenant Presbyterian Church, has passed beyond the mortal ken of Richmond, but not beyond the reverent and affectionate memory that will be his so long as one who knew him shall live. Few ministers who have labored in Richmond have been so widely and deeply beloved. His ministrations knew no churchly demarcation. He knew no creed, no race, no rich nor poor, when he could be of service to his fellow man. His whole life was an exemplification of the Christ love which he preached, and Richmond is a better city today because he lived and labored and served his Master here. We, who knew him and loved him, know that is the enduring monument which would have brought most joy to his heart.—Richmond Times Dispatch.

This evening at Armory Hall the Dreadnaught A. C. basketball team will meet the Alexandria High School team in a game to decide the championship of the local players. The first of the series was won by the A. H. S. by a close score and the Destroyers expect to carry off the honors tonight.

The Destroyers have played sixteen games this season, winning fourteen. The game tonight is of particular interest and will doubtless draw a large crowd. A small admission fee of twenty cents will be charged to defray expenses.

Come and support home sports.

Enough said, when the announcement has been made that the Alexandria Athletic Association will give their next athletic show Wednesday night, March 16, 1920.

The first show given by this club was such a big success from the public sentiment that all you can hear is, when will they give another. The officials of the club have promised one every two weeks as the shows are well worth the price of admission.

The two main bouts are all that can be expected, the main boxing bout will bring together Young Arnold, of this city, and Knockout Mike of Camp Humphries, both are well known for their boxing ability.

The main wrestling bout will bring together two men who will show you the best in town. Brooks vs. Snooks. Can this bout be beat for a local attraction, if so you have got to show us. Earl Cornell will challenge the winner for the city championship.

We have other attractions that will make you laugh from beginning until the end. Some of the darkest sons of Petersburg and Jackson City have been engaged for the show. If you miss this show you will be sorry. We will give you the best in town.

Blames Prohibition Liquor For 25 Per Cent Insanity Rise

Chicago, March 15.—Insanity has increased 25 per cent in Chicago in the last eighteen months, Dr. James Whitney Hall, expert pschchologist, testified yesterday at the trial of Carl Wanderer for murder. The physician put on the Eighteenth Amendment much of the responsibility for this condition.

"While many cases are caused by the disorganized condition of affairs and the readjustment we are now going through, the biggest proportion of cases are caused by 'booze,' he said. "The kind of stuff sold nowadays, labeled as whisky, is enough to drive a man crazy. Scores of patients are taken to the hospitals every month with 'alcoholic insanity.' "

He said that from 350 to 400 patients were sent monthly by the hospitals to the Medical Insanity Commission of the Psychopathic Hospital for examination. Up to the last year the figures ran around 300 monthly, he said.

Garrett, former cashier of the Ocean View Day and Night Bank, whose doors were closed by W. R. L. Taylor, of the banking division of the State Corporation Commission yesterday. WOMAN JUROR DECISION MAY KNOCK OUT VENIRE

Pottsville, Pa., March 15.—The decision of the Schuylkill county court that women are ineligie for jury duty, amy knock out the entire session of the March term of civil courts, which begins here tomorrow a week. A motion will be made to quash the entire venire because of the presence of women jurors and because of the ruling of Judges Koch and Bergor this week, to the effect that women are not qualified as jurors in Pennsylvania.

The present law as to jurors was enacted shortly after the civil war and provides that all voters shall be considered qualified as jurors. But it is stated the intent of this law, at that time was manifestly directly only to the qualification of male citizens, and that it must be enforced only as to the intent.

MURDER OF ORGANIST CONFESSED BY NEGRO

Perth Amboy, N. J., March 15.—The mystery concerning the brutal assault and murder of Mrs. Edith Marshall Wilson, popular Perth Amboy organist, whose mutilated body was found within 20 feet of her own home early Sunday morning, was solved late yesterday afternoon when George Washington Knight, 22 years old, a negro brick worker from Cliffwood, New Jersey, confessed the crime. Assault was the motive, according to the signed confession.

News of the arrest and subsequent confession of Knight aroused the population to such a frenzy that only quick and efficient work by the police prevented the mob violence. Knight was rushed to the county jail at New Brunswick in a fast automobile and heavily shackled within 10 minutes after making the confession An ominous silence, that has caused a double guard to be placed around the New Brunswick jail, has settled down here today, and all negroes have been warned by the police to remain indoors to prevent an uprising.

Extra Session Opening is Set For April 11

Washington, March 15.—President Harding informed a committee of Senators yesterday that he had decided to call the Sixty seventh Congress into extraordinary session on April 11.

In the meantime the President will formulate his program of tax and tariff revision and other domestic legislation which he will recommend in his first message to the new Congress the day after its assemblies. Whether he will read his message to Congress, as did President Wilson, or revert to the written communication of the Presidents from Jefferson to Taft, Mr. Harding has not decided.

Workers Most Active In Anti-Soviet Revolt

Reports from Petrograd received yesterday by the Russian Information Bureau in New York show that the first overt act of the present farreaching anti-Bolshevik revolt followed a strike by employees of the Petrograd cartridge works. Disaffection spread to other industries, with increasing disorders and demonstrations in which banners were carried bearing the inscription "Down with the Soviet Autocracy."

Revolting sailors made the journey from Kronstadt to Petrograd on an ice-breaker and joined with the dissatisfied workmen in fomenting the revolution which threatens the Lenine-Trotzky regime.

Women of Ancient Egypt Artists In Make up Like Those of Today

Philadelphia, March 15.—The women of Memphis, Egypt, in the year 1950 B. C., were probably not so very different from the women of Memphis, Tenn., in the year 1921 A. D., if the cosmetics discovered by Dr. Clarence S. Fisher, curator of the University of Pennsylvania Museum, who for five years was in charge of the excavations at Memphis and elsewhere, and has brought back many interesting tales and some remarkable jewels which he dug up, mean anything.

The jewels were found under interesting circumstances. At Denderch Dr. Fisher found a rock tomb 15 feet below the surface, in which was the headless body of a woman covered with jewels. The most important ornament was a necklace of cornelian and amethyst beads, with, at intervals, four large amethysts, bearing the name of Sesostris I. As a pendant there was a large amethyst scarab bearing the cartouche of Sesostris. These are the only stones ever found in any necklace in Egypt bearing an inscription.

Near the body of the woman was a bronze mirror, an alabaster pot containing red and black paint for her toilet and two pots containing face cream. Five jars were also found, which were supposed to contain food, which had been filled with sand. The thrifty relatives apparently thought that sand was good enough food for a dead one.

In the royal palace of Merseptah, who is supposed to have been the Pharaoh of Exodus, a woman's jewels were found concealed beneath the floor. Whether she hid them from her husband or feared theft is unknown. A necklace of large gold beads, some golden amulets and another large gold necklace with a golden pendant several inches long, representing some person or deity, and also a golden ram with a human head and a golden eye, which was supposed to be sure defense against witchcraft. The amulets, which represented Isis, were supposed to ward off disease.

Many tons of other treasures dug have not yet been brought to the museum.

100 Airplanes Will Take Part In Warship Bombing Tests

Washington, March 15.—The mobilization of army aircraft and personnel at Langley Field, Va., is for the purpose of conducting training flights in preparation for bombing tests against naval vessels, a high official of the War Department said last night. The tests will take place in June and a large number of army airplanes and several dirigibles will take part in addition to all available naval air forces.

"This is the first opportunity we have had," the official said, "for any real training since the end of the war. We expect to have at Langley Field before the bombing tests take place about 100 planes of all types, including more than a score of new b-g Martin bombers and the necessary personnel."

The flyers already at Langley Field and those who have been ordered to report there are being trained in flying over the water and dropping bombs at moving targets on the surface of the ocean, officers said.

BANKERS' SON HURT IN CRASH

Huntington, N. Y., March 15.—Gilbert W. Kahn, 18 year old son of Otto H. Kahn, New York banker, and Miss Olive Crowe, who resides here, are both unconscious in Huntington Hospital as a result of a collision yesterday between young Kahn's motorcycle and an automobile driven by Miss Crowe. The condition of both is said to be critical.

The motorcycle struck the auto squarely in the side, throwing the car on top of young Kahn.

NEGRO LYNCHED IN FLORIDA

Tampa, Fla., March 16.—William Bowles, a negro, was lynched by a mob near Eagle Lake, in Polk county, late yesterday after two deputy sheriffs had arrested him on a charge of making improper remarks to a young white woman.

As officers were taking the negro to the county jail at Bartow, they were held up by a mob of armed men, overpowered and the negro taken from them. He was hanged to a tree near the roadside.

Blames McAdoo Wage Award For Canadian Railway Ills

Ottawa, Ontario, March 15.—F. B. Carvell, Chairman of the Canadian Board of Railway Commissioners, in an address here today characterized the McAdoo award to railway men as "one of the most iniquitous pieces of legislation ever foisted on the United States."

Chairman Carvell declared the award was based neither upon business nor sound economics, but upon the hope of votes. He attributed the ills of the Canadian railways to the effect of the award.

$500 REWARD FOR LYNCHERS

Frankfort, Ky., March 15—Governor Edwin P. Morrow offered a reward of $500 each today for the arrest and conviction of members of the mob which early yesterday took from the Woodford County Jail and lynched Richard James, a negro. He also issued a proclamation removing from office John H. Edgar, ailer of Woodford County.

The Governor in his proclamation called upon all officers of the law in Woodford County to arrest and indict the lynchers. The action of the Governor, the first under the anti-mob law of 1920, gives the jailer ten days in which to appeal for reinstatement.

The Governor also instructed County Judge Edmond Muleahy to institute account of inquiry as the Grand Jury will not meet until May. It was stated.

Immigrants to Have Chance to Own Land

Washington, March 15.—Plans to divert immigrants from the cities and industrial centres and to co-ordinate agencies of the Departments of the Interior, Agriculture and Labor to place the newcomers on small farms were announced by W. W. Husband, the new Commissioner General of Immigration, who was sworn in today.

The Commissioner General made public a plan approved by Secretary of Labor Davis which he declared would help solve the immigration problem and at the same time correct the economic situation arising from the flow of population to the large cities.

ising and compete for the prizes to be offered.

Cards advertising the event have been scattered throughout the city, advertisements have been inserted in a number of the weeklies in this district and prospects for the biggest crowd ever visiting the city are excellent.

Four prizes of $25 each are to be given to those taking part in the parade. One prize will be given for the most original float best advertising the particular business it represents; another will be given for the most artistically decorated float; a third for the best showing of automobiles in line of parade, and the fourth $25 will be given to Alexandria's firemen who will take part. This prize was primarily for the company making the best showing, but it later developed that the captains of Columbia and Reliance companies refused to compete against the Relief Truck company, owing to the fact that the last named company has only a small number of active members and because of the fact that all three companies are, at the present time, working in complete harmony and the captains of the companies with the great membership did not consider it a fair proposition to the company with the membership smaller. The money, therefore, will be equally divided among the three companies.

The judges chosen to pick the winners for the other prizes are Judge Robinson Moncure, W. A. Smoot, and Julian Y. Williams, president of the Chamber of Commerce.

The parade will form on North Washington street and route of parade will be announced tomorrow.

CRIME IN VIRGINIA SHOWS

Richmond, March 15.—Crime in Virginia has decreased more than 50 per cent during the past year, according to analysis of statistics given yesterday by the various state and federal agencies having to do with the detection and punishment of lawbreakers in the Old Dominion.

The decrease in actual crime is placed at a greater figure than 50 per cent because many convictions now are for violations of liquor laws which, before November 1, 1916, were not classed as crimes and which were not punishable.

RESULTS REMARKABLE SAYS NEW YORK MAN

Prominent Rochester Citizen Tried Ten Years To Get Relief, But Tanlac Is Only Thing That Helped Him.

JAMES J. BEASLEY
Of Rochester, New York

One of the latest to testify regarding the powers of Tanlac, the celebrated medicine which has been accomplishing such remarkable results is James J. Beasley, 102 Elmdorf Avenue, Rochester, New York. Mr. Beasley has been chief record keeper for the Department of Water Works, city of Rochester, for thirty years and is a well known and highly respected citizen. In referring to the remarkable recovery of his health by the use of Tanlac, Mr. Beasley said:

"I have been trying for ten years to find relief from a case of dyspepsia. Nothing ever helped me to amount to anything until I got Tanlac. This is saying a great deal, for I did everything it seems that a man could do to find relief. Of course, I was hardly ever sick enough to go to bed and was most always able to keep going, but I just never felt right. At times during those ten years, my stomach would become sour like vinegar. I would have an uncomfortable bloated up feeling after eating that would last for hours. I suffered a great deal from nausea. At times my heart would flutter and palpitate and I would become alarmed over my condition. My nerves were on edge all the time, and I became irritable, nervous and restless. I had no strength or energy to do anything. In fact I wasn't like myself at all. Even a week or two ago it was an effort for me to get out of my chair and I felt as stiff and clumsy as an old work horse.

"It is really remarkable what Tanlac has accomplished in my case. It has relieved me entirely of indigestion. I never have that distressing feeling any more after eating, and I feel perfectly fine in every way. I will always feel grateful for what this wonderful medicine has done for me and I am only too glad to give it my heartiest endorsement."

Tanlac is sold in Alexandria by Edgar Warfield, jr., and good druggist everywhere.
